GOVERNMENT'S ISSUANCE CALENDAR FOR APRIL TO JUNE, 2020

1. As part of Government's effort to improve market transparency in the issuance of Government securities, we forward the attached issuance calendar for publication.
2. The Calendar is developed based on the Net Domestic Financing in the 2020 Budget, the domestic maturities and the Medium Term Debt Management Strategy (MTDS) for 2020-2023. The Calendar shows the securities that are intended to be issued in respect of Government's Public Sector Borrowing Requirements for the period April to June, 2020.
3. Please note that Government is expected to update the issuance calendar on a monthly rolling basis, to reflect a full quarter financing programme.
4. The Calendar also takes into consideration Government's liability management programme, market developments (both domestic and international) and the Treasury & Debt Management objective of lengthening the maturity profile of the public debt.
5. Based on the above and current market conditions, Table 1 provides a summary of the gross borrowing requirement for the period April to June, 2020. The amounts stated in the Calendar are indicative to guide the market and may be revised when transaction adverts are published.
