

**PRESS RELEASE****FOR IMMEDIATE RELEASE****BANK OF GHANA TO HOST HIGH-LEVEL PAN-AFRICAN CENTRAL
BANK GOVERNORS' CONFERENCE WITH BANK OF ENGLAND**

The Bank of Ghana, in partnership with the Bank of England and the UK Foreign, Commonwealth and Development Office (FCDO), will host a **two-day High-Level Pan-African Central Bank Governors' Conference** in Accra from **10–11 November 2025** under the theme “*Central Bank Governance: Leadership, Credibility, and Resilience in African Central Banking.*” The event forms part of the long-standing Bank of Ghana–Bank of England Technical Cooperation Programme.

Since 2018, the Bank of England Technical Cooperation Programme has supported 21 African central banks in strengthening macroeconomic modelling, financial stability, climate-risk supervision, and institutional governance.

The Pan-African Central Bank Governors' Conference provides a rare platform for current and former African Governors and Deputy Governors to engage in candid, off-record discussions on how central banks can preserve credibility, independence, and resilience in a rapidly changing global environment.

The conference has been deliberately designed to encourage honest reflection and peer learning rather than formal presentations. Therefore, participation is limited to invited central bank leaders, senior officials from the Bank of England, FCDO, IMF, AFI, and other experts. The discussions are to inform future leadership development and capacity-building programmes for African central banks. A **communiqué** summarising the conference's key insights and outcomes will be issued after the event. **END**
